

Simplifying Administrative Complexity to Reduce Pharmacy Benefit Costs

Addressing What's on Your Mind

Prescription affordability is a top issue in health care. And it's a valid concern, especially when you consider:

▶ Rx spending is expected to grow 5.7% annually¹

▶ 1 in 4 people suffering from chronic conditions find it difficult to afford their medication²

Understanding Your Needs

It's a given that health benefit costs are going to continue to grow. As an alternative pharmacy benefit manager (PBM), Navitus is in a unique position to help. With rising costs and ever-changing regulatory requirements, governments are faced with increasing complexity and need a PBM partner to help them ease administrative burdens and reduce costs. We offer extensive experience in working with Medicare Part D, Medicaid and Exchange plans and are well versed in delivering high-quality service that meets and exceeds compliance and regulatory requirements. Additionally, our wide variety of solutions work to keep constituent costs low, while offering your recipients robust benefits and clinical support to help keep them healthy and happy.

Getting More from Your Pharmacy Benefit Management

We're committed to making prescriptions more affordable for you and your members. That's why we work hard every day to take the unnecessary costs out of pharmacy benefits. To that end, we've reinvented pharmacy benefit management to work smarter to deliver real savings and improve health.

Our modern, alternative solution leverages a powerful PBM engine built on a transformative pass-through approach, lowest-net-cost philosophy and outstanding clinical care model. With this engine in place, ordinary PBM tools such as utilization management, formulary and networks perform at a higher level to improve health more effectively and generate even more savings.

Transformative Pass-Through Approach

- ▶ Receive 100% of all discounts and rebates that we secure on your behalf
- ▶ Get unrestricted visibility down to the claim level for better tracking and monitoring
- ▶ Experience lower drug trend, decreased PMPM expenses and reduced costs

Lowest-Net-Cost Philosophy

- ▶ Get a high performance drug mix (i.e. low cost generics, less expensive brands) that consistently delivers the lowest net cost and reduces PMPM expenses
- ▶ Achieve substantial rebates without paying more with our low AWP starting point
- ▶ Meet the needs of your Medicare Part D, Medicaid and Exchange plans while focusing on lowering costs

Outstanding Clinical Care Model

- ▶ Receive real-time, personalized support for members via the latest in multi-channel engagement
- ▶ Get best-in-class care with our use of 360-degree patient data and evidence-based guidelines combined with our ability to leverage pharmacist and prescriber relationships to deliver meaningful interventions
- ▶ Experience improved outcomes with robust member support to promote adherence and close gaps in care
- ▶ Keep benefit plan recipients healthy and happy to reduce absenteeism, while increasing productivity
- ▶ Deliver clinically appropriate, high quality care for your recipients with our URAC accredited PBM programs
- ▶ Receive accredited quality care: For plan year 2019, the Navitus MedicareRx program achieved a 4.5 out of 5 star EGWP rating by CMS.⁴

Meeting Your Goals

Managing your pharmacy benefit is no small task. That's why you need a PBM partner who can offer guidance and support along the way. Our service and support starts with a seamless implementation, followed by insightful reporting, regularly scheduled account reviews and consultative VALUE summaries to ensure we meet your goals.
